AIR SOURCE HEAT PUMP CARE

How much does a heat pump service cost?

£250 one-off — or from £15/mo

Our one-off ASHP service is £250 (£270 with your hot water cylinder). A plan starts at just £15/mo — that's £180 a year, less than a single one-off service — and it's all handled for you.

X Paying one-off, every year

- X** £250 per service (£270 with cylinder), every year
- X** You have to remember to book it
- X** No specialist support between visits
- X** Repairs billed on top (£150–£2,000)

✓ On a Renewable Helpline plan

- ✓** From £15/mo (£180/yr) — less than one one-off service
- ✓** Your annual service booked & done for you
- ✓** Specialist phone support included
- ✓** Priority Care includes the labour to fix faults

Never miss a service — ASHP maintenance plans
